

SEEDBALL

Seed List

WILDFLOWER RANGE

Bee Mix: Five bee-friendly native wildflower species recommended by the Bumblebee Conservation Trust that are rich in easily accessible pollen and nectar.

Butterfly Mix: Five native wildflower species aimed to attract butterflies and recommended by Butterfly Conservation as ideal nectar plants for butterflies.

Urban Meadow: Developed in collaboration with River of Flowers (an organisation working to create urban wildflower corridors), this mix is great for pollinators and will thrive in urban environments.

Cloud Meadow: Five native wildflower species that are great for bees and butterflies and which all have white flowers.

Sky Meadow: Five native wildflower species that are great for bees and butterflies and which all have blue flowers.

Poppy: Simply common poppy.

EDIBLES RANGE

Herb Mix: Basil (Sweet Genovese), Sweet Marjoram, Chives, Dill and Parsley.

Salad Mix: Greek Cress, Red Russian Kale, Green Frills Mustard, Red Frills Mustard and Salad Rocket (Dentellata). Our fastest growing variety!

Tea Mix: A perfect blend, or each by themselves: Chamomile (*Anthemis arvensis*), Mint (*Mentha rotundifolia*) and Anise (*Pimpinella anisum*).
